Garden Claw & Garden Cultivator

A Garden claw has many uses. It can be used for loosening, cultivation, turning and weeding any type of soil.

A hand cultivator/hoe is used to break up and turn the soil where you will plant and for removing weeds. It can also be used like a small plow to dig the planting rows.

Available Colors

Garden Fan Rake & Garden Shovel

This rake is light enough to shove over grass without damaging and digging into your yard. Its small size and plastic material make it convenient to carry and rust free.

The shovel/trowel offers precision for digging in small places. If you plan to plant flowers or vegetables in your pots, or even in your yard, you will need a hand shovel to ensure proper digging of holes.
